INTRODUCTION

AU-DELÀ DE L'UTILE

MODELEC est un fabricant français d'appareillages électriques. Expert dans la conception et réalisation de façades et mécanismes, l'industriel à taille humaine façonne depuis 1976 la matière brute, et propose des solutions bien pensées, pour une installation simplifiée. Une dynamique entre forme, fonction et finition qui est au cœur du savoir-faire, offrant un design juste et maîtrisé.

[EN] Beyond the useful
MODELEC is a French manufacturer of electrical equipment. As an expert in the design and construction of cover plates and mechanisms, this industrialist on a human scale has been shaping raw material since 1976, offering well thought-out solutions for simplified installation. Its core expertise combines form, function and finish, offering controlled designs that suit real-life needs.

[ES] Más allá de lo útil
MODELEC es un fabricante francés de mecanismos, experto en el diseño y la producción de placas y mecanismos. Producción industrial en un ambiente familiar, desde 1976 trabajamos las materias primas para ofrecer soluciones bien pensadas y de instalación rápida y sencilla. Con nuestro saber hacer tomamos en consideración las formas, las funciones y los acabados.

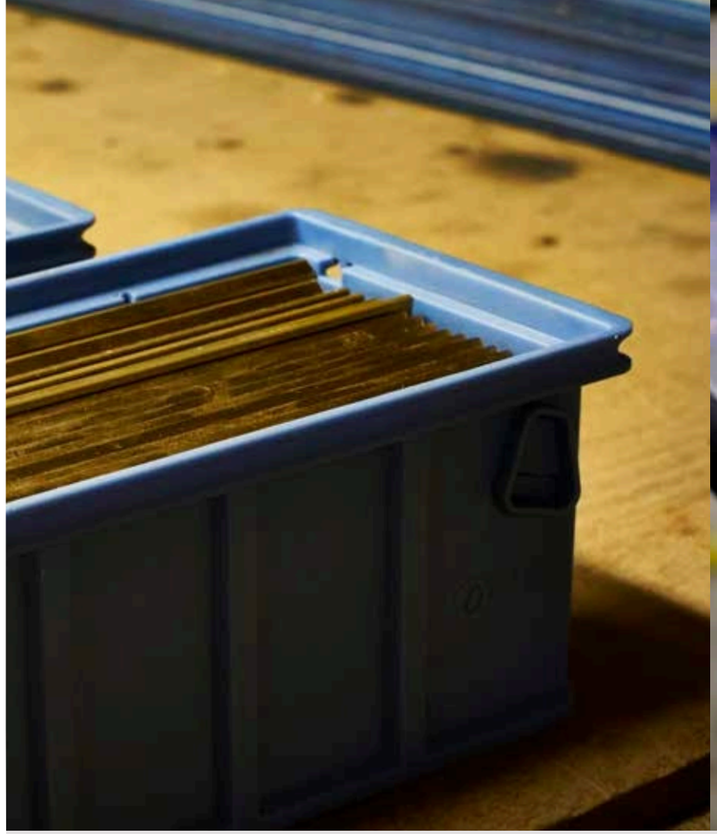

[IT] Oltre l'utile
MODELEC è un produttore francese di interruttori e prese, specialista nella progettazione e produzione di placche e meccanismi. Lavorazione industriale in un ambiente familiare, dal 1976 lavoriamo materie grezze per proporre soluzioni ben pensate, e per installazione facile e veloce. Un savoir-faire che prende in considerazione le forme, le funzioni e le finiture.

JEUX DE MATIÈRES

Combination of materials . *Combinaciones de materiales .* Giochi di materiali

Experts dans le choix des matières, nous travaillons des matériaux nobles tels que le laiton, l'aluminium et l'acier, ou encore le bois et la porcelaine. La conception de matériaux de caractère est également au cœur de notre métier, comme la résine Terrazzo. De l'usinage aux finitions, ces matières brutes sont façonnées directement dans la masse, de façon artisanale.

[EN] Experts in the choice of materials, we work with top- of-the-range materials such as brass, aluminium and steel, or wood and ceramic. The design of character materials, such as Terrazzo resin, is also at the heart of our business. From machining to finishing, these raw materials are shaped directly in the mass, in an artisanal way.

[ES] Trabajo de materia. Con nuestra experiencia elegimos y trabajamos materiales nobles, como el latón, el aluminio y el acero, o la madera y la porcelana. Utilizamos también materiales diferentes como la resina Terrazzo. Desde la producción hasta los acabados, trabajamos las materias primas de forma artesanal.

[IT] Grazie alla nostra esperienza, selezioniamo e lavoriamo materiali nobili come l'ottone, l'alluminio e l'acciaio, ma anche il legno e la porcellana. Ed utilizziamo anche materiali differenti, come la resina Terrazzo. Fin dalla produzione alla finitura, le materie vengono lavorate, di maniera artigianale.

UN DESIGN COMPLET

Complete design . *Undiseñocompleto .* Undesign completo

Nous dessinons des formes aux lignes pures, qui s’intègrent dans tous les espaces. Les formats proposés sont multiples, de la plaque étroite à la quadruple s’adaptant aux besoins de chacun. Nous offrons de nombreuses fonctions, à choisir et combiner à l’envi.

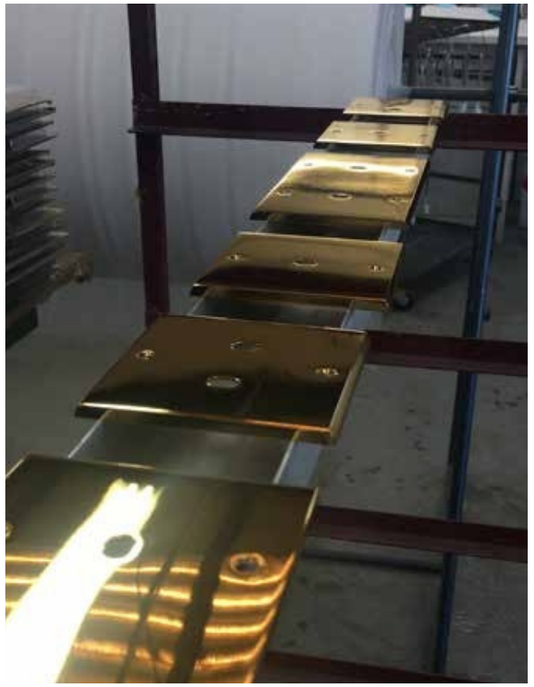

[EN] We design with pure, sleek lines that integrate into any space. Multiple formats are available, from the narrow plate to the quadruple, adapting to each client’s preferences. We offer many functions to choose from and combine as needed.

[ES] Trabajamos formas con líneas puras que se integran en todos los espacios. Proponemos varios tamaños de placas, desde placas estrechas hasta placas cuádruples, con el fin de que se adapten a todas las necesidades. Ofrecemos varias funciones para elegir y combinar según cada proyecto.

[IT] Progettiamo forme dalle linee pulite, adatte a qualsiasi spazio. Offriamo varie dimensioni di placche, dalle placche strette fino alle quadruple, per rispondere ai bisogni di tutti. Offriamo un’ampia gamma di funzioni, da scegliere e combinare in funzione del progetto.

INTUITIF ET UNIVERSEL

Intuitive and universal . *Intuitivoyuniversal* . Soluzioni intuitive e universali

Nous avons pensé à simplifier votre installation. Nos produits s'installent dans des boîtiers d'encastrement standards et sont compatibles avec tous les protocoles domotiques existants. Pour réduire le délai de pose, les mécanismes sont disponibles rapidement et la façade, touche finale qui vient habiller vos projets, est aimantée.

[EN] We have done everything to simplify your installation. Our products are installed in standard flush-mount boxes, and are compatible with all home automation protocols. To reduce the installation time, the mechanisms are quickly available and the cover plate, the finishing touch that enhances your projects, is magnetised.

[ES] La instalación de nuestros mecanismos es rápida y sencilla mediante cajas empotradas estándar, y son compatibles con todos los protocolos de domótica existentes. Para reducir el tiempo de instalación, los mecanismos están disponibles rápidamente, y la placa, el toque final que destaca cada proyecto, es magnética.

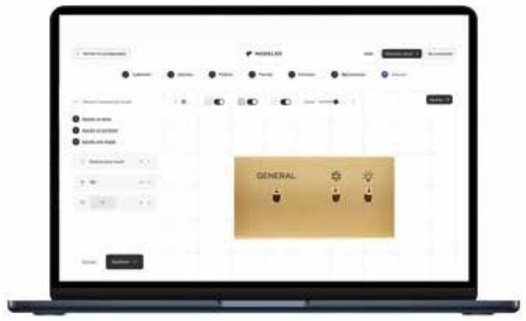

[IT] Abbiamo provveduto a semplificare la vostra installazione. I nostri prodotti possono essere installati in scatole da incasso standard, e sono compatibili con tutti i protocolli domotici esistenti. Per ridurre i tempi di installazione, i meccanismi vengono forniti con velocemente e dopo le placche, il tocco finale che valorizza i vostri progetti, sono magnetizzate.

CONFIDENCE

La collection Confidence, avec son levier en laiton, est un grand classique du monde de la décoration. Ses formes épurées et le détail de ses finitions soignées en font un incontournable pour vos projets résidentiels, hôteliers ou tertiaires. La collection Confidence aurait pu d'ailleurs s'appeler Confiance. La juste touche, quel que soit votre parti pris esthétique.

[EN] The Confidence collection, with its brass lever, is a great classic of the world of decoration. Its clean shapes and the detail of its neat finishes make it a must for your residential, hotel or tertiary projects. The Confidence collection deserves its name. The right touch, whatever your aesthetic choice.

[ES] La colección Confidence, con su palanca en latón, es un clásico en el mundo de la decoración. Sus formas puras y el detalle de sus minuciosos acabados lo convierten en un elemento imprescindible para sus proyectos residenciales, hoteleros o del sector terciario. La colección Confidence también podría llamarse Confiance. El toque justo, independientemente de su eleccion estética.

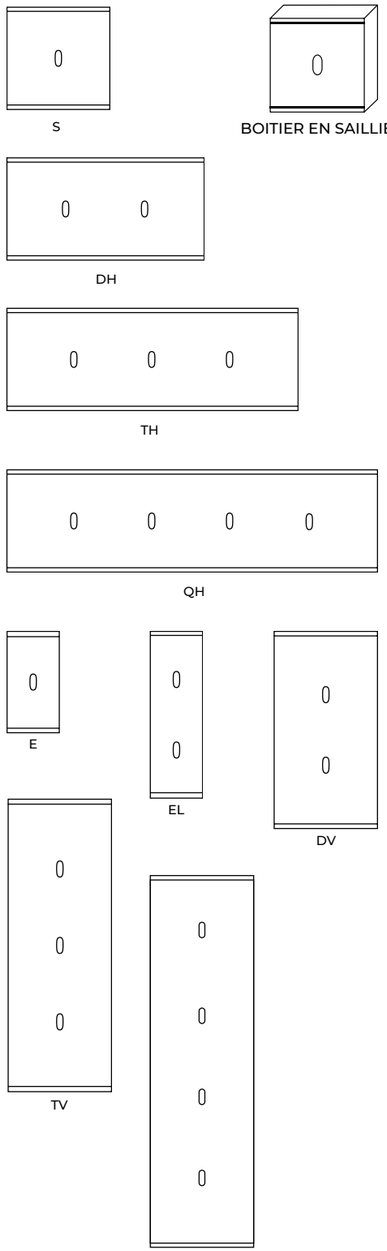

[IT] La collezione Confidence, con leva in ottone, è un grande classico del mondo della decorazione. IRIS by MODELEC

COLLECTION

IRIS by MODELEC

Collection héritée de l'esthétique des années 30, la collection Iris by MODELEC est tout en douceur : sa forme ronde aux bords tendres est associée au levier en laiton, et se laisse caresser du regard. Simple, élégante et efficace, elle permet de se faire plaisir, avec un budget très raisonnable. La collection se décline également en porcelaine noire ou blanche, et depuis fin 2024 en 7 finitions de laiton, satiné ou miroir.

[EN] A collection inherited from the aesthetics of the 1930s, the Iris by MODELEC collection is soft: its round shape with soft edges is associated with the «drop» lever, and it lets itself be caressed by the eye. Simple, elegant and efficient, it gives your interior a treat on a reasonable budget. The collection is also available in black or white porcelain and is now declined in 7 brass finishes.

[ES] La colección Iris by MODELEC, heredera de la estética de los años 30, es todo suavidad: su forma redonda con bordes suaves se asocia a la palanca tipo «gota», y puede acariciarse con la mirada. Sencilla, elegante y eficaz, gusta también por sus precios muy asequibles. La colección también está disponible en porcelana blanca o negra y desde 2024, en 7 acabados de latón.

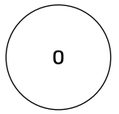

[IT] Rifacendosi all'estetica degli anni '30, la collezione Iris by MODELEC è morbidezza: le forme arrotondate con bordi smussati si associano alla leva a goccia e si lasciano accarezzare dallo sguardo. Semplice, elegante e incisiva, piace pur richiedendo un budget molto ragionevole. La collezione è disponibile in porcellana nera o bianca e da 2024, è disponibile anche in 7 finiture di ottone.

This turnkey solution includes a MODELEC mechanism with native KNX integration: the reference in home automation installation. Installation and configuration are simplified thanks to Hager's KNX Easy software. It offers endless possibilities: up to 6 controls on the same panel, with or without indicator light (LED). In addition to the classic functions (ON/OFF or dimming), opt for a motion detector or a connected KNX thermostat that matches your push buttons.

DOMÓTICA INTEGRADA

Esta solución, llave en mano, incluído un mecanismo MODELEC con KNX nativo integrado: la referencia en instalación domótica. La instalación y el ajuste se simplifican gracias al software KNX Easy de Hager. Ofrece posibilidades infinitas: hasta 6 controles en la misma fachada, con o sin luz indicadora (LED). Además de las funciones clásicas (ON/OFF o atenuación), opte por un detector de presencia o un termostato conectado KNX que combine con sus botones pulsadores.

DOMOTICA INTEGRATA

Questa soluzione, chiavi in mano, include un meccanismo MODELEC con integrazione KNX nativa: standard di riferimento per l'installazione della domotica. L'installazione e la configurazione sono semplificate grazie al software KNX Easy di Hager. Offre possibilità infinite: fino a 6 comandi sulla stessa placca, con o senza indicatore luminoso (LED). Oltre alle funzioni classiche (ON/OFF o dimmerazione), è possibile scegliere un sensore di presenza o un termostato KNX connesso abbinato ai vostri pulsanti.

02. DOMOTIQUE SEMI INTÉGRÉE

La solution semi-intégrée est également clé en main. Elle se compose d'un mécanisme MODELEC et d'un module d'entrée THEBEN pré-câblé. Il s'installe et se connecte donc facilement à votre système électrique. Le protocole inclus est en KNX, la référence en matière de domotique. De larges possibilités s'offrent à vous : jusqu'à 5 commandes sur un mécanisme (soit 15 fonctions) et la possibilité d'ajouter des voyants témoins (LED 5V).

LES UTILISATIONS

SEMI-INTEGRATED HOME AUTOMATION

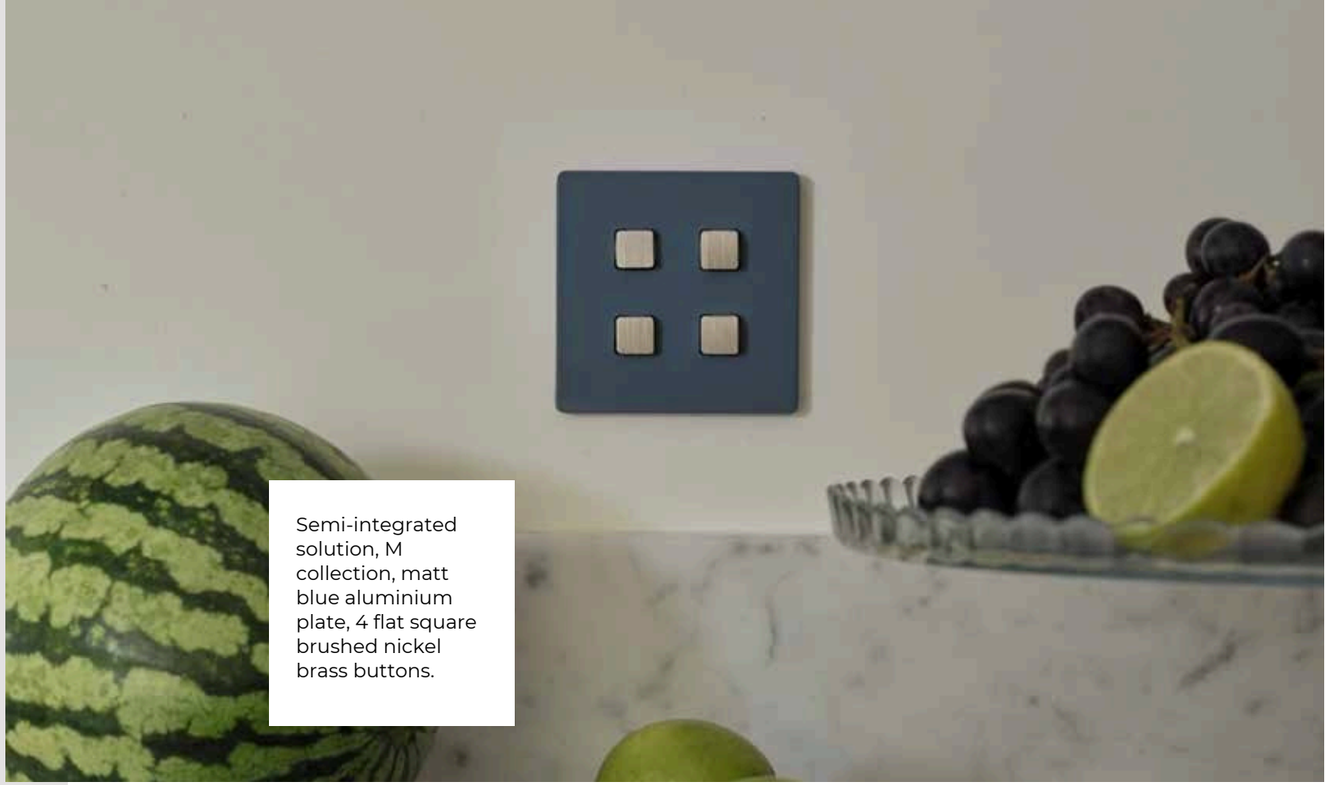

The semi-integrated solution is also turnkey. It consists of a MODELEC mechanism and a pre-wired THEBEN input module. It installs and connects easily to your electrical system. The included protocol is KNX (the standard in home automation). You have many possibilities: up to 5 controls on one mechanism (15 functions) and the option to add indicator lights (5V LED).

DOMÓTICA SEMI INTEGRADA

La solución semi-integrada también es llave en mano. Consiste en un mecanismo MODELEC y un módulo de entrada THEBEN pre-cableado. Se instala y conecta fácilmente a su sistema eléctrico. El protocolo incluido es KNX (la referencia en domótica). Tiene muchas posibilidades: hasta 5 controles en un solo mecanismo (15 funciones) y la opción de agregar luces indicadoras (LED de 5V).

DOMOTICA SEMI INTEGRATA

La soluzione semi-integrata è anche chiavi in mano. Si compone di un meccanismo MODELEC e un modulo di ingresso THEBEN pre-cablato. Si installa e si collega facilmente al vostro sistema elettrico. Il protocollo incluso è KNX (standard di riferimento per la domotica) permette fino a 5 comandi su un meccanismo (15 funzioni) e la possibilità di aggiungere spie luminose (LED 5V).

OPEN HOME AUTOMATION

The MODELEC controls—lever switches, push buttons, and flat buttons in push mode—are all compatible for home automation use (with all market protocols). You simply need to wire our mechanisms to the input module of your choice. This solution offers a wide range of design options for your facade: shapes, materials, and finishes.

DOMÓTICA LIBRE

Los controles MODELEC—interruptores de palanca, botones PUSH y botones planos en modo pulsador—son todos compatibles para su uso en domótica (con todos los protocolos del mercado). Solo tienes que cablear nuestros mecanismos al módulo de entrada de tu elección. Esta solución permite una amplia gama de opciones de diseño para tu fachada: formas, materiales y acabados.

DOMOTICA LIBERA

I comandi MODELEC—interruttori a leva, pulsanti PUSH e pulsanti piatti in modalità pulsante—sono tutti compatibili per l'uso in domotica (con tutti i protocolli disponibili sul mercato). Bisogno solo cablare i nostri meccanismi al modulo d'ingresso di vostra scelta. Questa soluzione consente una vasta gamma di opzioni di design per la tua placca : forme, materiali e finiture.
